Dear Mr Weisberg:

Thank you for your letter. Your time was appreciated.

No word from Garrison - so far - just as well - as my scribble caused you to mistake my connection, or at least the extent of it.

The fact that my husband's half brother is a member of the N. O. police dept, could also complicate matters. I'm sure the brother is not involved - for or against Garrison - but is young - unworldly & supporting a large family.

Russell Long's T.V. statement Sunday - was a hopefull sign. The first really.

You are correct - one must take a stand - But, in this political climate - that stand could be ones finish.

Sincerely
Lois Hatfield

I think the biggest mistake all of you who write books against the "Warren Report" make is to run each other down. It has become so general, that it causes people to lose faith in all of you.

The Times Biscayne - has my little either -

Have one more clipping - I will send sometime -
